### THE IDA NEWSLETTER

The IDA Newsletter is an official channel of communication of the Igarra Development Association. The Association, which is a non-political, non-governmental organisation is set up to promote the peace, unity, growth and development of Igarra town. The Newsletter will supplement the vibrant IDA WhatsApp Platform and social media handles.

The Newsletter will serve majorly to inform IDA members in particular and the public in general of IDA vision, mission, plans, programmes, current issues and activities. It will get people to be more interested in IDA with a view to becoming more active members. It will report, document and keep records of past events and announce oncoming ones. It will showcase donors and contributors to IDA development programmes, publicise accomplishments and celebrations of members and advertise products, services, projects and programmes as requested.

The IDA Newsletter will be a medium that will share new knowledge, create awareness around current issues in Igarra, mould public opinion, promote ethical re-orientation, build consensus around issues affecting the people. It will serve to receive feedback on burning issues. It is hoped that it will eventually help to transform the IDA from its social media presence to having a formidable physical presence in Igarra and other towns and cities.

In short, the IDA Newsletter will inform, entertain, educate and enlighten.

The frequency of publication will be determined by various factors. We will start with publishing this newsletter on IDA WhatsApp platform, post the PDF format to friends and well-wishers, and distribute print copies by hand delivery. Sponsorship is needed to sustain this publication. We solicit your support.

### THE IDA CONSTITUTION

The Igarra Development Association (IDA) is an association duly registered in accordance with the Companies and Allied Matters Act 2020. It has a Constitution that governs its operations. The Constitution is currently under review. Membership is being expanded to accommodate non-indigenes especially spouses and those that

have contributed greatly to the development of Igarra town. The Constitution stipulates the aims and objectives of the Association, membership requirements, the Executive Committee members and functions, the Board of Trustees, types and conduct of meetings, source of income, disbursement and application of funds, election of executive committee members, etc.

The new Constitution has provision for the following additional positions: Assistant Secretary, Chief Whip/Provost Marshal and Welfare Officer. Elections into these offices will be conducted in due course.

### AIMS AND OBJECTIVES

- 1. To promote development in lgarra.
- 2. To promote unity among all lgarra indigenes.
- 3. To engage in social and community work.
- To collaborate with other developmental associations, institutions and government agencies.
- To promote educational development.
- 6. To form solid, non-partisan networking platform to galvanize all Igarra indigenes at home and in diaspora.
- 7. To periodically recognize deserving indigenes with awards and honours.
- 8. To annually organise and fund empowerment programmes.
- 9. To pursue in the interest of lgarra people, any other related programmes geared towards the realization of all its aims and objectives.

### THE IDA FROM INCEPTION

The Igarra Development Association was founded in 2016 with the goal of addressing concerns about the near total absence of government presence in Igarra in particular and Akoko Edo Local Government Area in general. There was an obvious need for an intervention fund to cater for critical areas in the Igarra community. It was agreed by the founding fathers that members pay N1,000 monthly, that is N12,000 annual dues to be supplemented with free-will donations from members and friends of the Association worldwide. The founders envisaged that if 1,000 people can come together and each pay N12,000 annually, that will be N12 million which could be used to address an identified issue.

### **Achievements**

In its seven years of existence, the Association has done so much, including:

- 1. Donation of 15KVA generating set to the Igarra General Hospital
- 2. Got NYSC Medical Health Professionals (including Doctors and Pharmacists) to supplement the staffing at the General Hospital.
- 3. In partnership with the Rotary Club of Palm Grove Lagos and JadRock Foundation the IDA organized a free eye test and surgery for the inhabitants of Igarra and gave about 1,000 eye glasses to

those that needed them.

- 4. Donated a multi-million Naira anaesthetic equipment to the Igarra General Hospital to aid in minor surgical operations.
- 5. An Ambulance was also donated to the General Hospital.

We cannot overstate the immense contributions of donors and contributors in cash and in kind to the great achievements recorded. We are most grateful.

In addition to the above, the pioneer Executive Committee led by Azebani Mike Ukana registered and incorporated the Association, inaugurated it, held two Annual General Meetings, furnished the Doctors Residence and furnished the IDA office.

It is no mean achievement that the Igarra Development Association which began as an idea of a few patriotic Igarra indigenes has today become the one and only association that has brought all sons and daughters of Igarra, at home and in diaspora under one roof.

Credit for the achievements recorded above must be given to the pioneer Executive and board of Trustees.

# 2 0 2 4 - 2 0 3 0 I D A DEVELOPMENT PLAN

Article 3, Sections 1 to 11 of the IDA Constitution say that the IDA was set up to promote development in Igarra. To achieve this and have the Igarra we want, we need clearly stated development goals and objectives, blueprints, roadmaps, templates and strategic implementation plans. To this end,

a 61-Member Sustainable Development Programme Planning Committee was set up under the leadership of Mr. P. K. Moses.

The Committee is to brainstorm and identify the challenges facing lgarra, recommend solutions to the identified problems, develop detailed implementation action plan that will guide the IDA

intervention even beyond the tenure of this Executive. The Committee is to produce a seven-year (2024-2030) Development Plan. This is going to guide the new EXCO in its work. To ensure more specialised and detailed work, the Main Committee is broken into ten s u b - c o m m i tt e e s w i t h Chairpersons, Vice and Secretaries.

### AKOKO-EDO ECONOMIC AND INVESTMENT SUMMIT

The Akoko-Edo Economic and Investment Summit is aimed at promoting local content for global consumption and sustainable development. The second in the series of a seven year strategic plan, the theme for this year's Summit was "Towards Economic Growth and Development". The Summit held at Dabom Hotel, Igarra on 16<sup>th</sup> August, 2023 with Alh Kadiri Nasiru as Chairman.

The Summit partnered with Edo Jobs training arm to provide Agribusiness training for youths and women. This training saw youths and women coming from Ososo, Ojah, Damgbala, Okpe, Enwan and Igarra. In the course of the training, participants were opened to the many business opportunities that lies not just in Agriculture but in their environment. The training lasted for three days and ended with participants visiting an

ultra-modern greenhouse farm in Igarra. About eighty youths and women participated in the training.

The Summit climaxed on Wednesday with the Investment Summit proper which featured paper presentations, exhibition of some solid minerals and cultural display from the Ojah cultural troupe.

Papers were presented by Hon. Prince Dele Obaitan, Dr. Steve Ekundayo, Dr. Victor Ekun and Dr. Fakunle, all of them drawing attention to the many investment opportunities in Akoko-Edo and how/why we must maximize what we have for our development.

The Summit urged the miners to commit to more Community Social Responsibility (CSR) and called for Environment Impact Assessment (EIA) for all mining activities.

### **Membership Drive**

The IDA Constitution has provision for three categories of Membership: Full, Honorary and Spouse Membership. The target of the founding fathers of IDA was that we have a minimum of 1,000 members. Today we have 321 persons on the IDA WhatsApp Platform some of whom cannot be said to be members. We are embarking on massive membership drive. New members are welcome. Existing members are hereby requested to invite their spouse, children, relations, friends and well wishers to join the IDA.

### Financial Membership.

No Association, especially one that focuses on development, can succeed without a committed, financially up to date membership. Indeed, the founding fathers envisaged a well-funded Association based on timely payment of annual dues, generous donations and contribution by development oriented and patriotic members. Unfortunately, in the 7-year history of the Association, we could have done better. Continued on page 9

When compared with sedimentary rocks, the yields of the boreholes in these rocks are not as promising because of limited storage capacity. ### IGARRA SKILLS ACQUISITION CENTRE

The Igarra Skills Acquisition Centre number of them are self employed example, we have just 5 computer was established by Edo state today in Igarra and other places. systems that are working and Government under the recommendation of Honorable. Jemitola the then Commissioner for Women Affairs in the year 2008 to train intending entrepreneurs in the following areas:-

- 1. Hair Dressing, Cosmetology and Bead Making
- 2. Computer and Secretarial **Studies**
- 3. Tiles Fixing
- 4. Traditional Cloth Weaving
- 5. Catering and Hospitality Management
- 6. Fashion Design

The intention of the government is to train the youths to acquire skills in the above named areas so as to find a place in Nigerian industries, to contribute to poverty eradication, and also serve as a veritable way to fight against human trafficking and other social vices.

The Skills Centre is designed in such a way that each aforementioned Skills is acquired under six months, certificates and starter packs are given to graduated trainees to start up their businesses. Properly trained artisans will be competent to be self employed and employ others also. These trades are strengthened with staff, equipment and tools, instructional materials, training and a conducive learning environment.

Since 2008 till date the Centre has trained well over 1000 people in the various skills and a good Out of all the trainees about 200 sometimes we have up to 20-30 were empowered by the State trainees with just these computer Government on the maiden systems. We need starter kits in the graduation ceremony. Since then, following Departments: no empowerment has been done. Hairdressing, Cosmetology and We have well over 800 or more to Bead Making; Tiles Fixing;

be empowered.

### **CHALLENGES**

In the State, the Ministry of Social Development and Gender Issues is directly in charge of the Skills Centre. Funding has been very inconsistent. Instructors' stipends are not paid for 3-6months and this affects their motivation and dedication.

Another major challenge is that most of the equipment are not enough and some are obsolete. For

Traditional Cloth Weaving; Catering and Hospitality Management; and Fashion Design. Note that starter kits are the items that are used for practicals during the training so it varies from department to department.

Power supply is not a challenge at all because a member of lgarra Development Association single handedly put in place a

solar system that supplies light 24/7.

Edo State Skills Acquisition Centre requires adequate and regular funding so as to be able to achieve the aims of the scheme. Adequate and regular funding that takes care of the day to day running of the Centre, the starter kits for practical and the empowerment packs for trainees of the various departments.
